## Recent Projects

### A MARKET-PAGE WITH CSS/HTML/JS

📅 Mar 2022 – Apr 2022

a complex project for me because I used just Vanilla-JavaScript and pure-CSS I make a simple loader and work with Grid in layout. you can see this project in NFT-market

### WORK WITH API

📅 Apr 2022

this project gives your a username and give you the Github of user-name this project is for learning Jquery and asynchronous programming in javascript you can see this project in Github-finder

### BUILD A STATIC SITE (SOODDEH)

📅 aug/sep 2022

a freelance project that is I made it with bootstrap,sass and jquery

### BUILD A WEB-APP (FRAHOSH)

📅 oct/nov 2022

a project I made it with react,mui and NextJS you can see this project(react-version) in Frahosh

### BUILD A SPA WITH REACT (MENTALLAND)

📅 feb 2023/mar 2023

a dynamic site that I use usecontext for making global state and work by api with axios library you can see this project in Mentalland

### BUILD A PANEL FOR FRAHOSH

📅 mar 2023/now

a dynamic site that I use usecontext hook and redux for making global state and work by api with axios library
